Section 2 Disclosure Details

1. Capital adequacy

Capital Management Framework describes the process for ensuring capital adequacy over time is as follows:

- capital adequacy targets are set against measurable benchmarks;
- 3-year capital strategy and plans are developed to meet capital targets;
- 'trigger events' for identifying potential breaches of capital targets are developed;
- regular monitoring of financial performance against capital targets (including stress tests and forecasting);
- action plan developed, approved and implemented where the occurrence of a trigger event results in breach of a trigger level or a regulatory requirement;
- capital adequacy targets, capital strategy and trigger events are reviewed and amended as appropriate.

All elements of this process are subject to oversight, review and/or approval by the Board.
